Transanal haemorrhoidal dearterialization (THD) versus open haemorrhoidectomy	770
Bhatia and Chalebi report on the technique of trans-anal haemorrhoidal dearterialization compared with open haemorrhoidectomy (OH). Post-operative pain and infection were more common in the OH group.	
Atypical Clinical Presentation of a Patient with Monkeypox	771
El Sheikh and Milos describe a case of monkey-pox in a 36 year old man. He presented with a cellulitis on his nose.	
Testosterone Prescribing in a New Irish Specialist Menopause Clinic	772
Nic Shamhráin reports that hypoactive sexual desire disorder is the main indication for testosterone prescribing at their specialised menopause clinic. In a series of 227 patients, the majority were treated with Testogel, and one third reported improvement.	
An Investigation into Fertility Awareness amongst the child-bearing population	773
Stokes et al. report on a cross-sectional study in which four hundred and eighty participants from the general population answered questions about fertility. The study assessed individuals with and without children. 95% of the respondents believe that smoking and alcohol have a negative effect on fertility. The respondents also estimated that IVF was 30%-60% effective.	

- [Hookah smoking – an overlooked aspect of tobacco control](#) 774
Al Kubani and Kavanagh report on the prevalence of Hookah smoking.
The authors identified 39 retail outlets.

Short Reports

- [Vancomycin dosing in neonates and sub-therapeutic levels](#) 775
- [Variations in newborn airway management](#) 776
Ni Chathasaigh et al. report on the variations in neonatal airway management. There were different face masks, 10 different laryngoscopy blades, and 3 different video-laryngoscopes in use.

Occasional Pieces

- [Rheumatic Fever and Rheumatic Heart Disease: A National Paediatric Cardiology Centre Study Over Two Decades](#) 777
Ryan et al. report 17 cases of rheumatic fever/rheumatic heart disease over the period 2004-2020. Carditis 88% and Chorea 76% were the common manifestations at presentation.
