Setting the Standards for Early Childhood Health and Wellbeing	923
Original Papers	
<p>Localisation using multiple magnetic seeds in unilateral breast surgery: clinical and radiological outcomes in a tertiary breast cancer centre</p> <p>Al Azzawi et al. describe the technique of magnetic seed insertion to locate impalpable breast lumps per-operatively in a series of 43 patients.</p>	924
<p>Wearing a Fitbit™ Increases Physical Activity Levels in Women with Gestational Diabetes</p> <p>Murray and Burns describe how the use of Fitbits improved the exercise levels of pregnant women with gestational diabetes.</p>	925
<p>An Analysis of the contributing factors to Paediatric Patient Safety Incidents in Emergency Departments</p> <p>Reidy and O’Dea address the issues around paediatric safety issues. Factors consistently encountered are ED overcrowding, deviations from protocols, and communication problems.</p>	926
<p>Clinical utility of ABR testing under general anaesthesia in Autistic children</p> <p>Nae et al. report that among 59 children with autism who had a hearing test under the general anaesthesia there were only 2 cases with an abnormal result. In view of the low yield, the authors suggest that a hearing assessment that does not require a general anaesthetic is needed.</p>	927

Comorbid Chronic Diseases and Ventilatory Support in COVID-19 Hospitalisations Philip et al. describe the interaction of Covid-19 with existing co-morbidities. This group of patients had higher rates of non-invasive ventilation and an increased risk of mortality.	928
Thrombolytic therapy in ST-elevation myocardial infarction Murray et al. conducted a retrospective case control study of 21 thrombolysis and 42 PPCI control patients who had a confirmed STEMI.	929
Early Medical Abortion – Education and Training Experiences McAuliffe et al. surveyed medical students and GPs on their opinion about medical abortion training. 92% of students, 75% of trainers, and 54% of trainees felt it should be mandatory.	930
Health Needs Assessment and Chronic Pain Kiernan et al. report that a health needs assessment of patients with chronic pain placed a high priority on the alleviation of disturbed sleep, and pain on movement.	931
Short Reports	
“A Prescription for Perfection”: Junior Doctors’ Guide to Improved Discharge Summaries Radhakrishna et al. describe how a programme of education and a flow chart improved the quality of discharge summaries.	932
Case Reports	
Arthritis associated with carbimazole therapy Khav et al. report a case of arthritis secondary to carbimazole for the treatment of hypothyroidism.	933

<p>What lies beneath a deep vein thrombosis</p> <p>Gleeson et al. report a 60 year old man with episodes of DVT, the underlying cause being adenocarcinoma of the lung.</p>	934
<p>Anterior Cruciate Ligament Calcification</p> <p>Santos and Duarte describe a case of anterior cruciate ligament calcification.</p>	935
<p>Disseminated Herpes Zoster infection in an Immunosuppressed patient with neurological complication</p> <p>Zanib et al. describe a case of disseminated herpes zoster infection in a woman on methotrexate for rheumatoid arthritis.</p>	936
<p>Medical Termination of Pregnancy – An Emerging Risk for Maternal Mortality</p> <p>Janjua et al. report a case of ectopic pregnancy two weeks after a preceding medical termination of pregnancy.</p>	937
Letters to the Editor	
<p>Diabetes “on the side-lines with normal life”: A qualitative study of adolescents’ experiences of living with and managing type 1 diabetes</p>	938
<p>Dermatology Education: Confidence of Final Year Medical Students</p>	939
