Good Medical Communication Techniques	940
<b>Editorials</b>	
The role of Medical Imaging in the Investigation of Nitrous Oxide Toxicity	941
<b>Case Series</b>	
<p>Skin reactions associated with glucose monitoring devices</p> <p>Finnegan et al. describe 5 cases of skin reactions to diabetic medical devices. The allergens may include isobornyl acrylate and colophonium.</p>	942
<b>Original Papers</b>	
<p>Creating competent and confident volunteers for inclusive water sports</p> <p>Warratch et al. in a survey of water sports volunteers found that most felt valued, learnt new skills, and gained new confidences.</p>	943
<p>Medical Student Attitudes to Physician Assisted Death</p> <p>Kelly et al. have surveyed medical student attitudes to physician assisted deaths (PADs). Two-thirds were in favour, while the other third were unsure or opposed to it.</p>	944
<p>Patient and Public Panel Involvement to Optimise a Patient Information Leaflet Format</p> <p>Johnston et al. describe the process of patient and public involvement in the writing of patient information leaflets.</p>	945
Experiences and Perceptions of Physicians Utilizing the Irish Language	946

Carr and Antonijevic-Elliott describe the use of Irish in medical practice. Situations are recounted where its use was necessary.	
<p>Perioperative neuromuscular blockade monitoring: a comparison between tertiary centres and with existing guidelines</p> <p>Leonard et al. report on the interhospital variation in the use of neuromuscular blockade monitoring. The authors urge an increased awareness of its importance.</p>	947
<b>Short Reports</b>	
<p>Recognition and expressed insight on Advance Directives by patients with cancer</p> <p>Doolan et al. address the issue of advanced care directives (ACDs) among a group of cancer patients. None were aware of the new legislation but 87% stated that they would consider making an ACD.</p>	948
<b>Case Reports</b>	
<p>Oesophagectomy for End-Stage Achalasia</p> <p>Butt et al. describe the surgical management of end-stage achalasia with a mega-oesophagus.</p>	949
<p>Guillain-Barré Syndrome In Immunocompetent Patient</p> <p>Chia et al. report a case of Guillain-Barre syndrome in a patient with normal immunity and no history of preceding infection.</p>	950
<b>Letters to the Editor</b>	
<p>Navigating the Maze: A Unique Case of Intestinal Obstruction in Late Pregnancy</p>	951
<p>Unanticipated Uterine Torsion in Pregnancy</p>	952
