

1. Profile: Paediatrician <https://www.msf.ie/job-profiles/paediatrician>

As a paediatrician you provide medical care to (mainly) paediatric patients according to MSF protocols, values, and universal hygiene standards to improve the patients' health conditions.

Other duties involve:

Developing standardised protocols and guidelines in the line with the MSF and the international standards and the priorities identified in the field.
Participate in organisation and carry out formal training sessions for the paediatrics as well as daily bedside teaching in paediatric department.
Ensure implementation and strict adherence to the protocols once implemented.
Coaching and training of the junior local medical doctors.
Hands on work in the Paediatric Department and support the other paediatric MDs with the activities in the general paediatrics ward.

ROLE REQUIREMENTS

- **2 years' experience minimum as a Medical Doctor in a paediatric hospital**
- Proven professional experience after registration – ST5 level for paediatricians. We are however flexible and will also take all relevant experience into account where possible.
- Current or recent clinical experience
- Full Irish Medical Council or GMC Registration
- Availability of at least 3 to 9 months
- Minimum of three months' work, volunteering, or travel experience in low-resource settings
- Willingness to work and travel in unstable security environments.
- Adaptable and able to work in a multicultural team.
- Ability to cope with stress and to organize and prioritize workload.
- Able to provide training and supervision to others.
- Fluency in English (minimum B2)

Assets

A strong, general, medical background and the ability to work independently.

Specific training and/or experience in relevant areas, including tropical medicine, obstetrics and gynaecology, infectious diseases, HIV/AIDS, tuberculosis, and emergency medicine.

Minor surgical and obstetrical experience

*MSF Ireland can only accept applications for field positions from Irish residents who have a valid permit to work in Ireland. If you do not have this, we cannot accept your application.

2. Profile: Gynaecologist <https://www.msf.ie/job-profiles/gynaecologist>

Implementing gynaecology/obstetrics procedures, performing any other prior treatment required, during or immediately after a woman has given birth to improve women's reproductive health and to reduce pregnancy, delivery, and neonatology risks.

You will contribute to increasing the quality of obstetric and gynaecological department.

Furthermore:

Develop list of gynaecological conditions to be managed including admission/discharge criteria for all cases.

To support the implementation and ensure adherence to protocols for management of main obstetric and gynaecological morbidities [BB2]

To support in the clinical governance of maternity and gynaecological services. Including maternal death reviews, risk assessments and quality improvements

Management of complicated deliveries and performing instrumental deliveries, all types of caesarean sections, ectopic pregnancy, and gynaecological operations

Provide obstetrics and gynaecology consultation.

Training and mentoring local staff in diagnostic and medical management skills, including ultrasound.

Train and perform obstetrics and gynaecology surgical procedures.

Assess medical knowledge of local staff to identify training needs and develop a realistic plan to monitor and develop that knowledge which is not contingent on your presence.

To work in close collaboration with MoPH representatives (Head of department of Obstetrics & Gynaecology) and expatriate midwife

ROLE REQUIREMENTS

- **2 Years independent experience as obstetrician after specialization**
- You are a trained gynaecologist and obstetrician. Full Irish Medical Council or GMC Registration

- Proven professional experience after registration – ST5 for OB/GYNs.
- Minimum of three months' work, volunteering, or travel experience in developing countries in low-resource settings.
- USS diagnostic skills have no secrets for you.
- You possess enough experience and interest to train others in this area.
- Current or recent clinical experience
- You are proficient in the English language (B2)
- Mature personality
- Management experience and able to work hands-on as well as delegate.
- Ability to cope with stress and to organize and prioritize workload.
- Good negotiation and diplomatic skills
- Ability to work in a different and strong culture in a confined and insecure environment.
- Willingness to work with and train a multi-disciplinary and multi-cultural team.
- Available for a minimum of three months

*MSF Ireland can only accept applications for field positions from Irish residents who have a valid permit to work in Ireland. If you do not have this, we cannot accept your application.
