Research Fraud and Misconduct	1005
<b>Editorial</b>	
General Paediatric Surgery: A Model of Care for Ireland 2024	1006
<b>Case Series</b>	
Sternal plating for traumatic sternal non-union Kehoe et al. describe the management of 2 cases of sternal non-union fractures by fixation with locking compression plates.	1007
<b>Original Papers</b>	
The Stable Acute Vertebral (SAVe) compression fracture study Carroll et al. describe a series of 63 cases of osteoporotic vertebral compression fractures. The authors emphasise the need to develop a community multidisciplinary care approach.	1008
Impact of a new paediatric pleural empyema guideline on outcomes Jneibi and Cox describe the changing approach to the management of empyema in children with less invasive surgery and a greater emphasis on chest drains and fibrinolytics.	1009
Long-term outcomes for Advanced Colorectal Polyps in the BowelScreen Programme Keating et al. report on the removal of polyps in 50 patients. Endoscopic mucosal resection avoided surgery in 92% of cases.	1010
The Experiences of Native Irish speaking Older Adults Navigating Healthcare Services Breathnach et al. using semi-structured interviews to analyse the challenges facing older Irish speaking adults when engaging with health services.	1011

<p><b>Acute Paediatric Transfers from Regional Centre to Tertiary Centres</b></p> <p>O'Halloran et al. report that there have been 238 paediatric transfers from Cork to tertiary centres over 2 years. Half were transferred by IPATS, the rest by a combination of anaesthesia and paediatric staff.</p>	1012
<p><b>Implementing Faecal Immunochemical Testing in Primary Care</b></p> <p>Abdullah et al. report their findings on the use of FIT in 142 patients. There were 8 positive results that required further investigation.</p>	1013
<b>Short Reports</b>	
<p><b>Persistent Postural Perceptual Dizziness In The Neurology Clinic</b></p> <p>Radhakrisna and Gaughan describe the condition PPPD and the role of venlafaxine in its treatment.</p>	1014
<b>Case Reports</b>	
<p><b>Successful Delayed Amputated Split-Thickness Dermis Reattachment of a Fingertip Injury in the Home Setting without Sutures</b></p> <p>Waterstone et al. describe the management of a finger tip amputation injury following the use of a knife during cooking.</p>	1015
<p><b>Loperamide induced acute pancreatitis in pediatrics</b></p> <p>Bruno and Marinotti report the complication of acute pancreatitis in a child who accidentally ingested loperamide.</p>	1016
<p><b>Proximal Renal Artery Stenosis Presenting as Uncontrolled Hypertension</b></p> <p>Onwasigwe et al. highlight the investigation and management of a patient with hypertension secondary to renal artery stenosis.</p>	1017
<p><b>Femoral fracture in an amputation stump: impact of body weight on prosthetic rehabilitation</b></p> <p>Khan et al. describe the challenges in managing a femoral fracture in a patient with a previous lower limb amputation. The patient's high BMI was a compounding factor.</p>	1018
