General Paediatric Surgery: A Model of Care for Ireland 2024	1006
Case Series	
<p>Sternal plating for traumatic sternal non-union</p> <p>Kehoe et al. describe the management of 2 cases of sternal non-union fractures by fixation with locking compression plates.</p>	1007
Original Papers	
<p>The Stable Acute Vertebral (SAVe) compression fracture study</p> <p>McCarroll et al. describe a series of 63 cases of osteoporotic vertebral compression fractures. The authors emphasise the need to develop a community multidisciplinary care approach.</p>	1008
<p>Impact of a new paediatric pleural empyema guideline on outcomes</p> <p>Jneibi and Cox describe the changing approach to the management of empyema in children with less invasive surgery and a greater emphasis on chest drains and fibrinolytics.</p>	1009
<p>Long-term outcomes for Advanced Colorectal Polyps in the BowelScreen Programme</p> <p>Keating et al. report on the removal of polyps in 50 patients. Endoscopic mucosal resection avoided surgery in 92% of cases.</p>	1010
<p>The Experiences of Native Irish speaking Older Adults Navigating Healthcare Services</p> <p>Breathnach et al. using semi-structured interviews to analyse the challenges facing older Irish speaking adults when engaging with health services.</p>	1011

<p>Acute Paediatric Transfers from Regional Centre to Tertiary Centres</p> <p>O'Halloran et al. report that there have been 238 paediatric transfers from Cork to tertiary centres over 2 years. Half were transferred by IPATS, the rest by a combination of anaesthesia and paediatric staff.</p>	1012
<p>Implementing Faecal Immunochemical Testing in Primary Care</p> <p>Abdullah et al. report their findings on the use of FIT in 142 patients. There were 8 positive results that required further investigation.</p>	1013
Short Reports	
<p>Persistent Postural Perceptual Dizziness In The Neurology Clinic</p> <p>Radhakrishna and Gaughan describe the condition PPPD and the role of venlafaxine in its treatment.</p>	1014
Case Reports	
<p>Successful Delayed Amputated Split-Thickness Dermis Reattachment of a Fingertip Injury in the Home Setting without Sutures</p> <p>Waterstone et al. describe the management of a finger tip amputation injury following the use of a knife during cooking.</p>	1015
<p>Loperamide induced acute pancreatitis in pediatrics</p> <p>Bruno and Marinotti report the complication of acute pancreatitis in a child who accidentally ingested loperamide.</p>	1016
<p>Proximal Renal Artery Stenosis Presenting as Uncontrolled Hypertension</p> <p>Onwasigwe et al. highlight the investigation and management of a patient with hypertension secondary to renal artery stenosis.</p>	1017
<p>Femoral fracture in an amputation stump: impact of body weight on prosthetic rehabilitation</p> <p>Khan et al. describe the challenges in managing a femoral fracture in a patient with a previous lower limb amputation. The patient's high BMI was a compounding factor.</p>	1018
